

Issue 136: INSIDER'S EDGE: Spanish Language Resources on MHC

¿Cómo están?

Hello and how are you, Insiders? I hope this week's issue finds you well! Today, we'll be talking about Spanish language materials available through Maryland Health Connection. The main landing page for all Spanish language information can be found [here](#). Don't speak Spanish? The same materials can be found in English [here](#).

The four types of affidavits consumers can submit to satisfy outstanding verification checklist (VCL) items are also available in Spanish. Each affidavit is an acceptable form of documentation.

Affidavit for Individuals with No Income

Applicants who do not currently have any income can submit a signed "Affidavit of Current Income" to verify their self-attestation of \$0 income.

Affidavit for Individuals who are Self-Employed

Applicants who are self-employed can submit a signed "Affidavit of Self-Employment Income" to verify their income.

Affidavit Stating Individual is Not Currently Incarcerated

Applicants recently released from incarceration and seeking coverage through a Qualified Health Plan (QHP) can submit a signed affidavit indicating that they are not currently incarcerated and are eligible for benefits.

Affidavit of Exemption from Obtaining a Social Security Number (SSN)

As discussed in *Issue 135: INSIDER'S EDGE: SSNs and the Verification Checklist (VCL)*, individuals who are exempt from obtaining an SSN must provide a signed "Affidavit of Exemption from Obtaining a Social Security Number" to clear their identity VCL.

You can find copies of these different affidavits in both English and Spanish online. Take a few moments to review them and to familiarize yourself with each one.
